

More than just ID cards

Besides multifunctional Smart Cards, available in different technology forms, IDENTA offers ID Card Production Systems. IDENTA is not only partner for raiser of access control- and time recording-systems, but also direct contact for ID media (e.g. RFID-Key Tags, -Wristlets, -Labels etc.). From now on, the company has been acting over 40 years in the field of card technology all over Europe. It attends to its customers from Germany as well as from Switzerland. This long-time experience is the cornerstone for your confidence in investment and competence.
