

LOXX s

Contactless key tags

The RFID key tag is elegant and excels at its modern design. The technical specifications guarantee long durability even at very high exposure. Its range of application is hence very versatile. It provides highest security.

DETAILS

- The casing is almost indestructible, being a combination of stainless steel and polycarbonate
- The solid design of impact resistant polycarbonate (bonded through ultrasonic welding) and the stainless steel frame are extremely shock resistant
- The key tag is water resistant.
- The eyelet – as for commercially available key tags – cannot break away.
- Dimensions: ø approx. 36 mm, H 7.2 mm
- Passive system

VERSIONS

LEGIC® LOXX s
Mifare® LOXX s
Hitag™ 1 LOXX s
Hitag™ 2 LOXX s
EM LOXX s
