

## LOXX w design

### Contactless bracelets

The new contactless carrier medium, LOXX w design, is a new bracelet with RFID technology in the housing. It lies flexible and lightly on the wrist and attracts attention by its timeless design. Also after often carrying the rubber, it does not lose its elasticity.

#### OPERATIONAL AREAS

- Swimming pools
- Sauna
- Fitness centers
- Hotels, tourism
- Sport and leisure activities

#### VERSIONS

- LEGIC® MIM 1024 LOXX w design

#### BENEFITS

- Personalizable under the housing, cover made of plastic
- Bracelet in elastic rubber, e.g. in leather or fabric on request
- Dimensionally stable rubber, durable (in particular if frequent carrying)
- Standard colour is black, more colours on request
- Water-proof, heat-proof, scratch-proof
